

Dynamic visualization of high-dimensional data via low-dimension projections and sectioning across 2D and 3D display devices

Mid candidature review

Monash University, Faculty of Information Technology

Nicholas Spyrisson

Thesis Supervisors

Prof. Kimbal Marriott

Prof. Dianne Cook

Committee Members

Dr. Maxime Cordiel

Dr. Shirui Pan

Chair

Assoc. Prof. Bernhard Jenny

Presentation Date

DD Feburuary, 2020

Contents

Contents	i
1 cheatsheet	1
2 Introduction	2
2.1 Summary of research	2
2.2 Movition	2
2.3 Research aim	2
2.4 Methodology	2
3 Since Confirmation	2
3.1 Spinifex app	2
3.2 Multivate linear projection study	2
4 Thesis structure	2
5 Publications	2
5.1 spinifex package (R Journal)	2
5.2 Multivate linear projection study (IEE VAST)	2
5.3 Aim 3	2
References	2

Figure 1: A caption for crest figure

Contents

1 cheatsheet

A bib reference (Wickham, Cook, and Hofmann 2015).

A [Section intro](#) reference, alternatively, section ?? (with no @; `\ref{sec:intro}`).

A figure [1](#) reference (with @; `\((???)`(fig:crest).

2 Introduction

2.1 Summary of research

2.2 Motivation

2.3 Research aim

2.4 Methodology

3 Since Confirmation

3.1 Spinifex app

3.2 Multivariate linear projection study

4 Thesis structure

5 Publications

5.1 spinifex package (R Journal)

5.2 Multivariate linear projection study (IEEE VAST)

5.3 Aim 3
